Trays designed to help anyone work faster.

Special features bring order to workbench chaos and help professionals and DIY mechanics work faster, better. Trays come in SAE and Metric sizes for 1/2", 3/8" and 1/4" drives. Best selling 3/8" drive SAE and Metric trays hold sockets from 1/4" to 1" or from 6mm to 20mm. Trays are molded of rugged ABS plastic to shrug off gas, oil, bumps and hard knocks. Three SAE sizes in red and three Metric sizes in gray. Butterfly-type slot on bottom for pegboard display.

Red Socket Trays are Fractional Sizes

The ToolHANGER™

Crafts • Gardening • Hunting • Sports • Tools • Yard

The ToolHANGER is a new plastic organization board with twist and locking hangers to organize, display and hang your tools. The ToolHANGER has seven unique twist and locking hangers designed to hold your sockets, wrenches, pliers, hammers, screwdrivers, power drills, shovels, brooms, hunting and sporting equipment, grilling utensils, crafting supplies and more. The organization possibilities are endless with the ToolHANGER.

The ToolHANGER is designed to hang horizontally and vertically to maximize your work space and storage needs.

The ToolHANGER's proprietary twist and locking feature will keep your tools secure and right where you need them. It has never been so easy to organize, locate, display and hang your tools. The ToolHANGER is perfect for the garage, basement, shop, work station, home or anywhere tools are needed. The ToolHANGER is MADE IN THE USA.

- High-grade polypropylene plastic for interior or exterior use
- A variety of unique twist & lock hangers
- Interlocking boards can be configured vertically or horizontally
- From basements, garages and closets, to work benches, assembly lines & shop organization, the possibilities are endless!
- Please note: The ToolHanger is not sold with tools.

Wrench Racks

Quik-Pik SAE & Metric Wrench Racks

Quik-Pik Wrench Racks organizes wrenches while the clear labeling makes sizes easy to grab and go. Empty slots quickly show which wrenches are missing. Spring tabs in each slot keep wrenches in place. Low profile, fits 2-inch deep toolbox drawers. Molded in carry handle, "Butterfly" type display hook hole molded in.

Each tray pad printed with the following wrench sizes:

Part No. 5301 (RED) – SAE:

1/4, 5/16, 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4, 13/16, 7/8, 15/16 & 1"

Holds 13 Wrenches; Size: 12 1/2"L x 6 1/4"W x 1 1/4"H

Part No. 5302 (GREY) – Metric:

7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 & 19mm

Holds 13 Wrenches; Size: 12 1/2"L x 6 1/4"W x 1 1/4"H

Custom Organize SAE or METRIC Wrenches

Tough polypropylene rack has 13 pairs of wrench slots and comes with two sets of peel-off labels: One in Metric sizes 6mm through 20mm and the other in SAE sizes, 1/8-inch through 1-inch.

Wrench Racks can even be customized by combining Metric and SAE sizes. Spring tabs can also be trimmed to custom fit extra thick wrenches.

This image shows attaching label.

Hex / Torx Trays & GutterDrainer™

Hansen Hex / Torx Tray

- Organizes chrome plated (only) 3/8" Drive Hex & Torx Sockets for quick and easy identification by size and style.
- Socket size designations are pad printed on tray in easy to read, oil and gas resistant white ink.
- Special end tangs on the 9-3/16" x 3-1/4" tray provide a finger hold for picking up tray in tight tool boxes.
- Three open slots for extra sockets.
- Molded of tough ABS Plastic to resist oil, grease, and solvents.

Hex/Torx Tray helps automotive technicians instantly find the socket or bit they need. Tray holds 3/8" Drive SAE hex socket sizes 1/8, 9/64, 5/32, 3/16, 7/32, 1/4, 5/16 and 3/8", Metric sizes 4, 5, 6, 7, 8, 9 and 10mm; and Torx bit sizes 27, 30, 40, 45, 47, 50, 55 and 60.

- **Keeps specialized sockets and bits in one place**
- **Helps technicians keep tool chests organized**

Part No. 50000

GutterDrainer™

It Absolutely Keeps The Water Flowing™

Make your gutters virtually maintenance free... Affordably! Save time, and stay safe with GutterDrainer! The GutterDrainer system is an all season plastic* channel placed along the bottom of the gutter. The water flows underneath into the channel while debris is blocked out. The flow is rushed to the outlet, preventing gutter overflow.

Some debris may accumulate, but the wind can blow it off the smooth plastic surfaces, and the water will always drain. With GutterDrainer, cleaning is not necessary. GutterDrainer blocks out snow, absorbs heat from the sun, and keeps the channel open.

- Affordably priced
- Easy installation
- Works on all roof types
- Installs in 5" and 6" gutters
- 10-Year Replacement guarantee
- Minimizes gutter ice build-up and ice dam formation

Part No. 25

Picture above shows the Left Eave with No Gutter Drainer • Right Eave with Gutter Drainer Installed

We only use 100% Recycled Plastic; AND all left-over 'drops' can be recycled. All manufacturing waste is Recycled! 100% Green.
